Filter Quantity:

1

End Application:

An/aaq14

Filter Type:

High pass-low pass

Assembly Construction Method:

Mounted on panel

Special Features:

Consists of contacts, washers, terminals, insulation, sleeving, primer, adhesive, retaining compound, polyurethane coating, solder, contacts, electrical cable, electrical wire, machine screws, electrical connectors, nut plate, relay plate assembly, filter plate assembly, and printed wiring assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A507h0
