Filter Quantity:

3

End Application:

Ita for alq135

Filter Type:

Radio interference

Assembly Construction Method:

Leads soldered to terminals

Special Features:

Consists of solder, tin alloy; plastic sheet-poliamide (nylon) and mica insulation sleeving, electrical; insulating compound, electrical; capacitors, reactors, and case, emi filter, assy

Terminal Type And Quantity:

5 solder stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A507h0
