Filter Quantity:

2

End Application:

Used on dsests

Filter Type:

Low pass

Assembly Construction Method:

Terminals soldered together

Special Features:

Plate, terminal; 23-screw; bracket, filter; 18-screw; cover; 5-screw; 2-plate; 3-capacitor; 4-filter, inductor device; semiconductor device, diode; ar-insulation; 2-filter; ar-wire; ar-solder; ar-flux-type rma; 2-insulation sleeving; plate, end; plate, divider; ar-sealing compound

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A507h0
