Operating Temperature Range:

-20.0/+85.0 degrees celsius

Voltage Standing Wave Ratio Per Function:

2.1 single band pass

Average Power Rating Per Function:

1.0 watts single band pass

Inclosure Type:

Encased

Specification Data:

12464-b46d0006 manufacturers specification control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
