Overall Height:

0.520 inches

Body Length:

1.000 inches

Body Width:

0.500 inches

Body Height:

0.400 inches

Reference Frequency Per Function:

160.0 megahertz single band pass

Inclosure Type:

Encased

Mounting Facility Type And Quantity:

6 pin

Insertion Loss At Reference Frequency Per Function In Decibels:

1.5 single band pass

Functional Terminal Type And Quantity:

4 pin ground and 2 pin input-output

Frequency Band Width Per Function:

40.00 megahertz single band pass

Style Designator:

Rectangular terminal/terminals on one surface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A047b0
