Overall Length:

2.340 inches

Body Length:

1.840 inches

Body Width:

2.500 inches

Body Height:

0.750 inches

End Application:

Control-inter-cage 26401

Reference Frequency Per Function:

1.0885 gigahertz blank

Inclosure Type:

Encased

Mounting Facility Type And Quantity:

2 terminal

Insertion Loss At Reference Frequency Per Function In Decibels:

1.5 blank

Functional Terminal Type And Quantity:

1 connector, receptacle input and 1 connector, receptacle input

Frequency Band Width Per Function:

962.00 megahertz blank and 1.215 gigahertz blank

Style Designator:

Rectangular terminal/terminals on opposite surfaces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
