Voltage Standing Wave Ratio Per Function:

2.0 blank

Inclosure Type:

Encased

Features Provided:

Tunable

Insertion Loss At Reference Frequency Per Function In Decibels:

6.0 blank

Frequency Band Width Per Function:

20.00 megahertz blank

Special Features:

4-stage driver; 3db bandwidth; 0-60 degrees c temperature range

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
