Operating Temperature Range:

-40.0/+85.0 degrees celsius

End Application:

Arc169 solid

Power Line Frequency Rating Per Function In Hertz:

400.0 blank

Inclosure Type:

Encapsulated

Body Material:

Aluminum

Body Surface Treatment:

Nickel

Functional Description:

Filter, electrical, emi

Unpackaged Unit Weight:

10.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A047b0
