Overall Length:

19.000 inches

Overall Height:

2.750 inches

Overall Width:

3.500 inches

End Application:

27tv headend cabinet assembly

Reference Frequency Per Function:

339.5 megahertz single band suppression

Inclosure Type:

Encased

Mounting Facility Type And Quantity:

4 slot

Insertion Loss At Reference Frequency Per Function In Decibels:

1.0 single band suppression

Product Name:

Channel deletion filter

Special Features:

Bandwidth 5-860 mhz; channel deleted 36

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
