Electrical Filter Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5915-01-535-2659

Overall Height:
37.600 inches
Overall Width:
20.500 inches
Filter Type:
Radio interference
Special Features:
9tunable cavity rejection filter operating from 1.0 to 2.2 ghz and used to perform specification compliance testing as stated in mil-std-462,
rejection 50 db min @ tuned freq 80 db typical, insertion loss, 5 db max, impedance designed for 50 omega system
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A507h0
