Operating Temperature Range:

-50.0/+70.0 degrees celsius

Inclosure Type:

Encased

Features Provided:

Ring

Product Name:

Standard band pass filter

Special Features:

Surface quali type 80-50 per mil-o-13830; out of band blocking 1×10^{-4} from x-ray to fir; element is laser diode; 8.5 mm thick

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
