Overall Length:

4.000 inches

Overall Height:

2.500 inches

Overall Width:

2.500 inches

Special Features:

End item: tst/integration fac, item operating voltage 110/240vac, operating current 15amps, operating freq 50-400hz at 90 -140vac, 50-60hz at 90-250vac, diel withstandin (line-case) 1500vdc, max residual voltage after 1 sec: 34volts, has gas discharge tube and an mov combination to absorb severe line neutral transients

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
