Terminal Quantity:

2

Terminal Type:

Wire lead

Overall Length:

0.500 inches

Overall Height:

0.219 inches

Overall Width:

0.438 inches

Current Type:

Dc

Mounting Method:

Terminals, wire lead

Mounting Configuration:

Two leads 0.875 in. Lg radially located

Polarization Feature:

Included

Current Rating In Amps:

15.0

Current Interrupting Capacity:

1500.0 amperes

Shunt Capacitor:

Not included

Element Material:

Silicon carbide

Absorber Current Rating:

15.000 amperes

Protected Item Name:

Power supply

Voltage In Volts:

33.0

Special Features:

Operating temperature range minus 55 degrees plus 80 degrees

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-a
