Body Style:

Hole type

Overall Length:

4.625 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

3.625 inches

Mounting Slot Width:

0.281 inches

Overall Diameter:

1.125 inches

Case Material:

Fiber

Continuous Current Rating In Amps:

70.000

Terminal Width:

0.750 inches

Terminal Thickness:

0.125 inches

Maximum Voltage Rating In Volts:

600.0 ac

Circuit Over-current Interruption Type:

Time delay

Interruption Indicator Method:

Opaque body

Features Provided:

Nonrenewable fusible element

Circuit Over-current Interruption Delay Time In Seconds:

10.0 500 pct of current rating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01700
