Terminal Quantity:

2

Terminal Type:

Wire lead

Overall Length:

0.630 inches

Current Type:

Ac

Covering Material:

Any acceptable

Overall Diameter:

0.500 inches

Mounting Method:

Terminals, wire lead

Mounting Configuration:

Two leads; 1.120 in. Lg; 0.032 in. Dia; axially located

Polarization Feature:

Not included

Inclosure Feature:

Any acceptable

Protective Covering Type:

Cartridge

Hermetic Protection:

Not provided

Shunt Capacitor:

Not included

Element Material:

Selenium

Absorber Current Rating:

1.000 amperes

Protected Item Name:

Silicon rectifier

Voltage In Volts:

130.0

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-a
