Terminal Quantity:

2

Terminal Type:

Ferrule

Overall Length:

4.500 inches

Current Type:

Ac and dc

Overall Diameter:

1.156 inches

Mounting Method:

Terminal

End Application:

Iwo jima class lph, forrestal class cv, wasp class lhd, t1 anmps simulator.

Mounting Configuration:

Two ferrules 0.406 in. Long 0.360 in. Diameter-axially located

Polarization Feature:

Not included

Protective Covering Type:

Cartridge

Shunt Capacitor:

Not included

Element Material:

Glass

Criticality Code Justification:

Feat

Voltage In Volts:

50000.0

Special Features:

Weapon system essential

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
