Overall Length:

1.000 inches

Overall Width:

0.310 inches

Overall Thickness:

0.370 inches

End Application:

Type no. 3800

Usage Design:

Used in telephone circuits for protection against lightning or high voltage surges

Circuit Protector Block Location:

Ground side

Special Features:

Grooved and sealed together with an 0.005 in. Thk dielectric; breakdown voltage 650

Material:

Carbon

Material:

Carbon

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-b
