**Overall Length:**

1.000 inches

**Overall Width:**

0.310 inches

**Overall Thickness:**

0.370 inches

**End Application:**

Type no. 3800

**Usage Design:**

Used in telephone circuits for protection against lightning or high voltage surges

**Circuit Protector Block Location:**

Ground side

**Special Features:**

Grooved and sealed together with an 0.005 in. Thk dielectric; breakdown voltage 650

**Material:**

Carbon

**Material:**

Carbon

**Shape:**

Rectangular

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T214-b
