Overall Length:

1.250 inches

Overall Width:

0.375 inches

Overall Thickness:

0.250 inches

End Application:

Type no. 675

Usage Design:

Used in telephone circuits for protection against lightning or high voltage surges

Circuit Protector Block Location:

Ground side

Special Features:

Grooved 1.25 in. By 0.205 in. W by 0.047 in. Deep

Material:

Carbon

Material:

Carbon

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-b
