Overall Length:

1.250 inches

Overall Width:

0.375 inches

Overall Thickness:

0.250 inches

End Application:

Type no. 0-9

Usage Design:

Used in telephone circuits for protection against lightning or high voltage surges

Circuit Protector Block Location:

Above ground side

Special Features:

Air gap 0.003 in; a.C. Rms breakdown @450 volts

Material:

Plastic, phenol-formaldehyde

Material:

Plastic phenol-formaldehyde

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-b
