Overall Length:

1.250 inches

Overall Width:

0.370 inches

Overall Thickness:

0.500 inches

End Application:

Catalog no. 100

Usage Design:

Used in telephone circuits for protection against lightning or high voltage surges

Circuit Protector Block Location:

Ground side

Special Features:

Grooved; material is two carbon blocks w/a perforated acetate dielectric

Material:

Two carbon blocks w/a perforated acetate dielectric

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
