Body Style:

Tube type

Terminal Material:

Copper

Terminal Surface Treatment:

Nickel

Overall Length:

2.000 inches

Overall Diameter:

0.531 inches

Case Material:

Fiber

Continuous Current Rating In Amps:

0.400

Maximum Voltage Rating In Volts:

250.0 ac

Circuit Over-current Interruption Type:

Time delay

Interruption Indicator Method:

Opaque body

Features Provided:

Nonrenewable fusible element

Circuit Over-current Interruption Delay Time In Seconds:

13.0 300 pct of current rating

Special Features:

W/thermal cutout

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
