**Body Style:**

Tube type

**Terminal Material:**

Copper

**Terminal Surface Treatment:**

Nickel plated

**Overall Length:**

1.031 inches

**Overall Diameter:**

0.500 inches

**Case Material:**

Glass

**Maximum Voltage Rating In Volts:**

240.0 ac

**Circuit Over-current Interruption Type:**

Time delay

**Interruption Indicator Method:**

Visible element

**Features Provided:**

Nonrenewable fusible element

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A01700
