Body Style:

Tube type

Terminal Material:

Copper

Terminal Surface Treatment:

Nickel plated

Overall Length:

1.031 inches

Overall Diameter:

0.500 inches

Case Material:

Glass

Maximum Voltage Rating In Volts:

240.0 ac

Circuit Over-current Interruption Type:

Time delay

Interruption Indicator Method:

Visible element

Features Provided:

Nonrenewable fusible element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
