Body Style:

Tube type

Overall Length:

1.250 inches

Overall Diameter:

0.250 inches

Case Material:

Glass

Continuous Current Rating In Amps:

30.000

Maximum Voltage Rating In Volts:

25.0 dc

Circuit Over-current Interruption Type:

Time delay

Interruption Indicator Method:

Visible element

Features Provided:

Nonrenewable fusible element

Circuit Over-current Interruption Delay Time In Seconds:

25.0 200 pct of current rating

Special Features:

Vibration resistant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01700
