Overall Height:

0.500 inches

Overall Diameter:

0.812 inches

Unthreaded Mounting Hole Diameter:

0.265 inches single mounting facility

Accommodated Item Securing Device Type:

Friction fastener

Mounting Facility Type And Quantity:

1 unthreaded hole single mounting facility

Material:

Aluminum alloy 1100

Material Specification:

Ams 4102 assn standard single material response

Precious Material And Location:

Surface treatment silver

Precious Material:

Silver

Surface Treatment:

Copper and silver or rhodium

Style Designator:

Cup

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A062a0
