Terminal Quantity:

2

Terminal Type:

Wire lead

Overall Length:

1.125 inches

Current Type:

Dc

Overall Diameter:

0.500 inches

Mounting Method:

Terminals, wire lead

Mounting Configuration:

Two leads 2.500 in. Long 0.040 in. Diameter; axially located for mounting in any position

Polarization Feature:

Included

Current Rating In Amps:

5.0

Shunt Capacitor:

Not included

Element Material:

Ceramic

Protected Item Name:

Silicon rectifier

Voltage In Volts:

125.0 and 175.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
