Terminal Quantity:

2

Terminal Type:

Solder lug

Overall Length:

1.150 inches

Current Type:

Ac

Covering Material:

Enamel

Overall Diameter:

0.938 inches

Mounting Method:

Through bolt

Mounting Configuration:

One bolt 1.150 in. Long with threaded stud ends having 0.164-32 threads per in.-axially located

Polarization Feature:

Included

Current Rating In Amps:

3.0

Protective Covering Type:

Finish

Current Interrupting Capacity:

10.0 amperes

Shunt Capacitor:

Not included

Element Material:

Silicon carbide

Protected Item Name:

Silicon rectifier

Voltage In Volts:

25.0

Frequency In Hertz:

40.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-a
