**Terminal Quantity:**

2

**Terminal Type:**

Solder lug

**Overall Length:**

2.250 inches

**Current Type:**

Ac

**Covering Material:**

Enamel

**Overall Diameter:**

1.688 inches

**Mounting Method:**

Through bolt

**Mounting Configuration:**

One bolt 2.250 in. Long with threaded stud ends having 0.164-32 threads per in.-axially located

**Polarization Feature:**

Included

**Current Rating In Amps:**

3.0

**Protective Covering Type:**

Finish

**Current Interrupting Capacity:**

12.0 amperes

**Shunt Capacitor:**

Not included

**Element Material:**

Silicon carbide

**Protected Item Name:**

Silicon rectifier

**Voltage In Volts:**

250.0

**Frequency In Hertz:**

40.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T214-a
