Body Material:

Ceramic or glass

Terminal Quantity:

2

Terminal Type:

Wire lead

Overall Length:

0.307 inches

Overall Diameter:

0.380 inches

Mounting Method:

Wire lead

End Application:

Kidd class ddg, los angeles class ssn (688), forrestal class cv, nimitz class cvn, arleigh burke class ddg, ticondoeroga class cg (47), spruance class dd (963), oliver perry class ddg, tarawa class lha. Landing craft air cushion (lcac).

Usage Design:

Indoor

Mounting Configuration:

Terminal mtg

Arrester Type:

Gas

Breakdown Voltage:

635.000 volts

Criticality Code Justification:

Feat

Special Features:

Weapon system essential.Features - hermetically sealed.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-c
