Terminal Quantity:

1 and 1

Terminal Type:

Screw and solderless lug

Overall Length:

2.750 inches

Overall Height:

1.950 inches

Overall Width:

0.375 inches

Current Type:

Dc

Mounting Method:

Holes and terminal

Mounting Configuration:

Two 0.140 india holes spaced 0.8 00 in ctoc inline with terminal

Polarization Feature:

Not included

Shunt Capacitor:

Not included

Element Material:

Plastic, phenolic

Protected Item Name:

Printed circuit board

Voltage In Volts:

18.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
