Terminal Quantity:

1 and 1

Terminal Type:

Screw and solderless lug

Overall Length:

2.750 inches

Overall Height:

1.950 inches

Overall Width:

0.375 inches

Current Type:

Dc

Mounting Method:

Holes and terminal

End Application:

Runway visual range system, fa7861-7877 (rvr)

Mounting Configuration:

Two 0.140 in diameter holes spaced 0.800 in ctoc in line with terminal

Polarization Feature:

Not included

Shunt Capacitor:

Not included

Element Material:

Plastic, phenolic

Protected Item Name:

Printed circuit boards

Voltage In Volts:

48.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-a
