Terminal Quantity:

1 and 1

Terminal Type:

Screw and solderless lug

Overall Length:

2.750 inches

Overall Height:

0.187 inches

Overall Width:

0.375 inches

Current Type:

Dc

Mounting Method:

Holes and terminal

Mounting Configuration:

Two 0.125 in diameter holes spaced 0.750 in inline with terminal lug

Polarization Feature:

Included

Shunt Capacitor:

Not included

Element Material:

Plastic, phenolic

Protected Item Name:

Printed circuit board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
