Terminal Quantity:

1

Terminal Type:

Connector, plug

Overall Depth:

2.250 inches

Overall Height:

2.500 inches

Overall Width:

2.250 inches

Current Type:

Ac

Covering Material:

Steel and enamel

Mounting Method:

Case

Polarization Feature:

Not included

Inclosure Feature:

Any acceptable

Protective Covering Type:

Case

Current Interrupting Capacity:

4.5 kiloamperes

Hermetic Protection:

Not provided

Shunt Capacitor:

Not included

Element Material:

Copper

Protected Item Name:

Integrated circuit

Voltage In Volts:

120.0

Special Features:

Includes front mounted fuses and a panel lamp to indicate failure

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-a
