Terminal Quantity:

2

Terminal Type:

Turret

Overall Length:

2.000 inches

Overall Height:

2.380 inches

Overall Width:

1.190 inches

Current Type:

Dc

Covering Material:

Lacquer

Mounting Method:

Holes

Mounting Configuration:

Two threaded mounting holes 0.138-32 unc-2b thd 0.190 in. Deep; centered 1.500 in. Apart along the length and 0.690 in. Apart along the width

Polarization Feature:

Not included

Protective Covering Type:

Finish

Hermetic Protection:

Not provided

Shunt Capacitor:

Not included

Element Material:

Aluminum alloy and steel

Voltage In Volts:

50.0

Special Features:

Includes 0.250 in. Diameter adjustment pot for trip point adjustment range of 27 to 56 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
