Terminal Quantity:

2

Terminal Type:

Ferrule

Overall Length:

4.000 inches

Current Type:

Dc

Covering Material:

Glass

Overall Diameter:

1.156 inches

Mounting Method:

Terminal

Mounting Configuration:

Two ferrules 0.406 in. Long 0.360 in. Diameter axially located; may be mtd in any position

Polarization Feature:

Not included

Protective Covering Type:

Cartridge

Shunt Capacitor:

Not included

Element Material:

Metal

Voltage In Volts:

30000.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
