Terminal Quantity:

2

Terminal Type:

Solder stud

Overall Length:

1.500 inches

Current Type:

Ac

Covering Material:

Any acceptable

Overall Diameter:

1.500 inches

Polarization Feature:

Not included

Current Rating In Amps:

35.0

Protective Covering Type:

Case

Current Interrupting Capacity:

400.0 amperes

Shunt Capacitor:

Not included

Element Material:

Any acceptable

Voltage In Volts:

120.0

Special Features:

Trip point voltage-200 v peak

Frequency In Hertz:

50.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
