Terminal Quantity:

4

Terminal Type:

Wire lead

Overall Length:

1.400 inches

Overall Height:

0.650 inches

Overall Width:

0.350 inches

Current Type:

Dc

Covering Material:

Plastic

Mounting Method:

Terminal

Mounting Configuration:

Four wire leads 0.500 in. Min 1.100 in. Maximum length 0.040 in. Diameter spaced 0.300 in. Apart along the length

Polarization Feature:

Included

Current Rating In Amps:

80.0

Inclosure Feature:

Hermetically sealed

Protective Covering Type:

Case

Shunt Capacitor:

Not included

Element Material:

Any acceptable

Voltage In Volts:

14.0

Special Features:

Two bosses 0.030 in. High centrally located between terminals 1 and 2 and 3 and 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-a
