Terminal Quantity:

2

Terminal Type:

Turret

Overall Length:

2.000 inches

Overall Height:

2.380 inches

Overall Width:

1.190 inches

Current Type:

Dc

Covering Material:

Lacquer

Mounting Method:

Threaded hole

Mounting Configuration:

Two 0.188 in. Diameter thread insert 0.150 in. Deep located 1.500 in. Apart c to c along the base

Polarization Feature:

Included

Current Rating In Amps:

15.0

Inclosure Feature:

Moisture proof and high shock proof

Protective Covering Type:

Case

Hermetic Protection:

Not provided

Shunt Capacitor:

Not included

Element Material:

Aluminum and steel

Protected Item Name:

Power supply

Voltage In Volts:

24.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-a
