Terminal Type:

Solderless lug and tab, solderless lug

Overall Depth:

1.870 inches

Overall Height:

33.000 millimeters

Overall Width:

33.000 millimeters

Current Type:

Ac

Covering Material:

Plastic, epoxy resin

Mounting Method:

Threaded stud

Current Rating In Amps:

60.0

Protective Covering Type:

Finish

Hermetic Protection:

Not provided

Element Material:

Selenium

Absorber Current Rating:

Between 19.000 amperes and 60.000 amperes

Protected Item Name:

Transmitter module

Voltage In Volts:

300.0

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
