Body Material:

Plastic, polyester

Overall Length:

3.250 inches

Overall Width:

1.000 inches

Mounting Hole Diameter:

Between 0.164 inches and 0.169 inches

Mounting Hole Quantity:

2

Base Thickness:

0.120 inches

Mounting Hole Style:

In-line along the length

Fuse Accommodation Quantity:

1

Center To Center Distance Between Outside Mounting Holes Along Length:

2.500 inches

Criticality Code Justification:

Feat

Fuse Terminal Type Accommodated:

Ferrule

Special Features:

Distance between mounting hole and clip hole 1.060 in. C to c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
