Overvoltage Absorber - Page 1 of 2

View Online at https://aerobasegroup.com/nsn/5920-01-200-8244

Terminal Quantity:

2

Terminal Type:

Wire lead

Overall Length:

1.000 inches

Overall Height:

0.400 inches

Overall Width:

0.650 inches

Current Type:

Dc

Covering Material:

Plastic

Mounting Method:

Terminals, wire lead

Mounting Configuration:

Two 0.750 in. Lg, 0.050 in. Diameter wire leads spaced 0.600 in. C to c

Polarization Feature:

Included

Current Rating In Amps:

316.0

Protective Covering Type:

Case

Hermetic Protection:

Not provided

Shunt Capacitor:

Not included

Element Material:

Any acceptable

Absorber Current Rating:

316.000 amperes

Voltage In Volts:

28.0

Special Features:

Operating and storage temperatures are minus 55.0 degrees celsius min to 150.0 degrees celsius max; power dissipation 7.0 watts max; positive terminal marked with a dot

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
