Terminal Quantity:

2

Terminal Type:

Wire lead

Overall Length:

1.000 inches

Overall Height:

1.400 inches

Overall Width:

0.402 inches

Current Type:

Dc

Covering Material:

Plastic

Mounting Method:

Terminals, wire lead

Mounting Configuration:

Two wire leads 0.750 in. Lg min. And spaced 0.050 in. Apart

Polarization Feature:

Included

Current Rating In Amps:

33.0

Protective Covering Type:

Case

Hermetic Protection:

Not provided

Shunt Capacitor:

Not included

Element Material:

Silicon

Voltage In Volts:

280.0

Special Features:

Positive terminal is marked with a dot

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-a
