Terminal Quantity:

3

Terminal Type:

Connector, plug

Overall Length:

5.900 inches

Overall Height:

2.000 inches

Overall Width:

3.100 inches

Current Type:

Ac

Covering Material:

Plastic

Mounting Method:

Box encased

Mounting Configuration:

Three pronged electrical plug with a six foot electrical cord

Polarization Feature:

Not included

Protective Covering Type:

Case

Hermetic Protection:

Not provided

Shunt Capacitor:

Not included

Element Material:

Silicon

Voltage In Volts:

120.0

Special Features:

Rectangularly shaped box with six plug-in receptical outlets for protecting six different peripheral devices at once controlled by a master switch

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
