Body Style:

Tube type

Terminal Material:

Brass

Terminal Surface Treatment:

Nickel

Overall Length:

1.500 inches

Overall Diameter:

0.406 inches

Case Material:

Glass

Continuous Current Rating In Amps:

10.000

Fragility Factor:

Moderately delicate

Interruption Indicator Method:

Visible element

Features Provided:

Nonrenewable fusible element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
