Terminal Quantity:

1

Terminal Type:

Solder stud

Overall Length:

3.375 inches

Overall Height:

0.766 inches

Overall Width:

0.594 inches

Current Type:

Dc

Covering Material:

Metal

Mounting Method:

Holes

Mounting Configuration:

Two no. 5/32 in. Diameter holes

Polarization Feature:

Not included

Current Rating In Amps:

20.0

Inclosure Feature:

Corrosion resistant

Protective Covering Type:

Case

Hermetic Protection:

Not provided

Shunt Capacitor:

Not included

Element Material:

Any acceptable

Voltage In Volts:

30.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
