Breakdown Voltage:

125.000 kilovolts

Special Features:

Operating temp. Range deg. Celsius40.0/p70.0, generator power rating 1875.000 watts; wall mount; 6 outlet; indicator light and emi-rfi filter; high impact molded moryl; forward surge rating 1440 amps for 1/120 sec.; peak pulse power dissipation 800w for 1 ms; clamping response time 1-3 nanoseconds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-c
