Terminal Quantity:

20

Terminal Type:

Screw

Current Type:

Ac

Mounting Method:

Holes

End Application:

Weather support unit

Polarization Feature:

Included

Voltage In Volts:

150.0

Special Features:

Lightning protection board; 20 sensor wires; 2-stage protection; spark gaps and transzorbs; response time, less than 1 nanosecond

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T214-a
