**Terminal Quantity:**

20

**Terminal Type:**

Screw

**Current Type:**

Ac

**Mounting Method:**

Holes

**End Application:**

Weather support unit

**Polarization Feature:**

Included

**Voltage In Volts:**

150.0

**Special Features:**

Lightning protection board; 20 sensor wires; 2-stage protection; spark gaps and transzorbs; response time, less than 1 nanosecond

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T214-a
