Terminal Quantity:

2

Terminal Type:

Connector, receptacle

Overall Length:

3.000 inches

Mounting Configuration:

Input/output connector shall mate with type "n" 50.00 ohm femaale/male respectively

Polarization Feature:

Included

Protective Covering Type:

Tube

Shunt Capacitor:

Not included

Protected Item Maximum Current Rating In Amps:

43.000

Voltage In Volts:

5.8

Frequency In Hertz:

10000000.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
